Biloxi, MS 39535

Dear Ms. O'Keefe

Marc Gold & Associates is a national network of consultants working with the disability field to enhance full participation of persons with disabilities into regular employment and other aspects of community life. Our headquarters have been here on the Gulf Coast since Marc Gold's death in 1982. We would be pleased to have you include a link to us on your website, Disability Connections, when it is funded. The proposed Disabilities Internet Resource Center and the accompanying directory is a viable concept that seeks to build an interconnected community using technology and providing services to disadvantaged segments of the community. Please keep me apprised as to the result of your proposal.

Sincerely,

*Michael J. Callahan*

Michael Callahan, President, MG&A
